### **Daimler Truck North America Announces Strategic Relocation of Reno and Phoenix Parts Distribution Centers**

**Portland, Ore. (June 26, 2025)** – As part of their ongoing commitment to strengthening aftermarket operations and enhancing service to the dealer network, Daimler Truck North America LLC (DTNA) announced the planned relocation of its Reno and Phoenix Parts Distribution Centers (PDCs) over the next two years.

In response to significant growth in parts sales across the West Coast – particularly in the Pacific Northwest – DTNA is optimizing its distribution network to better meet capacity demands and improve geographic efficiency.

To support this effort, DTNA will be relocating:

- The Phoenix PDC (Arizona) to Las Vegas, Nevada in 2026
- The Reno PDC (Nevada) to Portland, Oregon in 2027

These new locations will enable DTNA to accelerate delivery times, enhance service levels, and align operations with increasing regional demand.

“We’re excited about the opportunities these moves will create for our dealer partners and customers,” said Drew Backeberg, senior vice president of Aftermarket at DTNA. “By investing in a more agile and strategically located distribution network, we’ll be in a better position to provide the right part, at the right place, more quickly - maximizing uptime and delivering even greater value and reliability.”
